

◇ LAB TASKS PER SDLC STAGE

◇ Stage 1: Planning and Requirement Analysis

Task:

- Describe the **problem** your system addresses
- Identify **target users**
- Conduct a simple feasibility analysis

Required Output:

- Project Overview (1–2 pages)
- Feasibility Summary:
 - Technical Feasibility
 - Operational Feasibility
 - Economic Feasibility

 *Deliverable:*

Project Plan & Feasibility Report (PDF)

◇ Stage 2: Defining Requirements (SRS)

Task:

- Identify system requirements

Required Content:

- Functional Requirements (at least 8–10)
- Non-Functional Requirements (at least 5)
- System constraints

 *Deliverable:*

Software Requirements Specification (SRS)

◇ Stage 3: Designing Architecture

Task:

Create design diagrams based on your system.

Required Diagrams (minimum):

- Context Diagram (DFD Level 0)
- Entity Relationship Diagram (ERD)
- System Architecture Diagram

 *Deliverable:*

Design Document Specification (DDS)

◇ Stage 4: Development (Coding)

Task:

- Implement at least **one core module** of your system

Required Evidence:

- Screenshots of source code
- Description of implemented features
- Brief explanation of tools used

 *Deliverable:*

Development Progress Report

◇ Stage 5: Testing

Task:

Test the developed module.

Required Testing Types:

- Unit Testing (minimum 3 test cases)
- Integration or System Testing (minimum 2 test cases)

 *Deliverable:*

- Test Case Table
- Bug Report (if applicable)
- Test Summary Report

◇ Stage 6: Deployment

Task:

Simulate deployment.

Options:

- Localhost deployment
- Cloud demo (optional)
- Installation steps documentation

 *Deliverable:*

Deployment Guide / Release Notes

◇ Stage 7: Maintenance

Task:

Identify possible future improvements.

Required Content:

- Identified bugs or limitations
- Planned enhancements
- Maintenance strategy

 *Deliverable:*

Maintenance and Enhancement Plan

Grading Criteria

Criteria	Percentage
Completeness of SDLC Documentation	30%
Technical Accuracy	25%
Alignment with SDLC Concepts	20%

Professional Format & Clarity	15%
Timeliness & Organization	10%
TOTAL	100%

Guide Question (Reflection)

Students must answer:

How did following the SDLC help you better understand and improve your software system?
